RUTHERFORD

Prison Hall was filled by a representative audience on Saturday night, when the second of the lectures by H. H. Ragan, on "Paris, the Magnificent," was given. The third entertainment of the people's course will be a lecture by Mr. Ragan on "Rambings in

Rome," next Friday night. The people of Bolling Springs Township are ex-cited over the rumer that a political "White Cap" organization has been formed, having for its object the overthrow of the present township committee. Supporters of the committee allege that the movement has been organized by political office-seekers who wish to min control of the township finances. James Van Roden and William McKenzle have been members of the committee for two years, and in that riod, it is said, the public improvements have execceded the expectations of the people. A resident of Boiling Springs yesterday hughed at the idea of white Caps." He said the organization referred to was a taxpayers' association, and that its object was to see that the townships' money was rightly spent. McKenzie, but that Councilmen Van Roden and "White Caps." He said the organization referred to McKenzie, but that Councilmen Van Roden and Edwards were being sharply criticised about the way the appropriation of \$3,000 a year for street improvements had been expended. Thousands of dollars, he said, had been raised in recent years to secure good roads for Bolling springs, but meagre results had been obtained. It is likely that the new association will have a ticket in the field at the election in March.

The Rev. Samuel J. Barrows, of Boston, Editor of The Rev. Samuel J. DR. HELMUTH'S ANNUAL ADDRESS.

HE SPEAKS TO THE FRIENDS OF THE HOMOEO PATRIC MEDICAL COLLEGE.

The students of the Homocopathic Medical College and their friends gathered in the lecture hall of the college building, at Sixty-third-st. and Eastern Boulevard, yesterday afternoon, to listen to the annual sunday lecture of Dr. William T. Helmuth. Dr. Hel-muth is much interested in the work of this college and each year delivers an address. His efforts are appreciated, as is proved by the large basket of flo which was presented to him yesterday at the close of his remarks.

This annual lecture is open free to all interested, and the large hall was crowded to its atmost capacity. The exercises were opened with singing by the students.

Dr. Helmuth then went upon the platform. After a short introduction referring to St. Valentine and his day, he speke on the subject of the changeableness of therapeuties, and later talked with much warmth on minutes before the patriotism of American physicians and surgious. After touching on the subjects of the many recent alleged discoveries in medicine, and roundly scoring st., lest night and twenty-one arrests were Dr. Koch's "lymph," the Doctor said :

WEST HOBOKEN.

A policeman late on Saturday night discovered the body of a five-months old girl haby frozen to death on the Paterson Plank Road West Hoboken. The child was clad only in an old salt sack. The Paterson Plank Road is on the line between Jersey City and Hoboken, and this is the fourth child which has been found either frozen to death or nearly frozen to death about the streets of persey City within the last two months.

RAHWAY.

Dr. Koch's "lymph," the Doctor said:

An important subject for consideration now arises. With all these improvements in medicine and the callateral sciences, has mankind been benedited in proportion! Do all these handless of medical education, now considered necessary for the study of the student and the understanding of the medical parcitioner, prevent disease, medicate suffering and save sudding and save medicate suffering and save become so numericus, produce as beneficial results upon humanity as our more advanced methods? Here are some figures which can answer the question definitely and which are well worthy of serious consideration as well as gratifying to those who are forest and curing disease, even at the risk of being considered (topina). THEIR RESPECTABILITY SUFFERED.

Anthony Arnoux, of No. 118 West Seventy-ninth-Brooklyn, had been visiting too many friends on saturday night, and became imbued with an expited idea of their own importance, which corresponded with the load of alcoholic refreshments they carried. Both men are lawyers, and when they met Police Officer William Deocher, of the West Thirtiethest. squad, at Sixth-ave, and Thirty first st., Armoux de fied the police officer to arrest him. He was promptly led off by Doccher. Foley interfered and dared the policeman also to arrest him. He was acco dated. Yesterday morning they told Justice Divver, in the Jefferson Market Police Court, that they were eminently respectable people and that they considered themselves sufficiently punished by the night's confinement. "It is humiliation enough to have to stand here," said Mr. Arnoux. "Your respectability should have been considered before you liquor get the best of you," answered the judge, your pride or feelings cannot be injured any more than the mechanic or laborer who takes a drop when under the influence of liquor you do and say things which you would yourselves condemn in a per-son in the lower ranks of life." They were discharged by the justice after his lecture.

THE COLORED PEOPLE AND THE CAKE WALK, Considerable indignation has been aroused among the colored people of New-York City and its vicinity over the coming cake walk to be held at the Madison Square Garden on Wednesday evening. It has been otherwise as being under the patronage of the beclas as of colored people, while this is disputed by a large number of the influential colored men and women of the city. TO FIGHT THE TELEPHONE PEOPLE.

ANOTHER CONCERTED EFFORT AGAINST HIGH CHARGES AND POOR SERVICE.

The Telephone Subscribers' Association, which was organized by the Board of Trade about two years ago, is preparing to wage active warfare on the Metropolitan Telegraph and Telephone Company in the Legislature. The association was formed to secur the passage of a bill for the reduction of telephone charges. Its first bill was introduced in the Legis lature of 1890, and made an arbifrary cut in rental It was defented, and last year a different bill was brought forward, providing for the appointment of : commission to investigate the subject of telephon charges with a view to the establishment of an equitble and reasonable rate. At that time telephones in New-York City cost \$150 a year, and the service was notoriously had measured by the standard of the service in foreign cities and the loni-distance service in this country. Yet the company was reaping en ermous profits, having in six years earned returns amounting to \$2,843,454 53 on an original cash invesment of \$600,000. This bill, like the other, met

that every means at the command of the company was brought to bear on those most prominent in the novement to buy or scare them off, but without avail. Having defeated the bill, however, the compan turned around and proceeded to raise rentals from \$150 to \$240 a year, urging as an excuse the expens involved in placing their wires underground. unwarranted and outrageous action has so exas pernted the subscribers that they have now returned the fight with renewed vigor and propose to carry It through to the end. The first difficulty which presents itself this year is to get the bill introduced. The association wishes

to have this done by a Democrat, so that the bill can not be opposed as a Republican measure, but no Democrat of any standing whatever can be found who oares to take charge of the bill without the permission of "Bosses" Murphy and Croker. To act it dependently in the matter would be political suicide so tightly is the Tamming halter adjusted about th necks of the legislative puppets. On the other hand to secure Mr. Croker's permission is apparently at impossibility, as the \$50,000 a year which the Metropolitan Telegraph and Telephone Company pay into the Tammany campaign fund is too fat a plu to be regarded lightly. An appeal will be made Messrs. Croker and Murphy this week, and if it i not successful the bill will be placed in the hands a Republican member. Then the association wil adopt the plan of campaign so successfully follower ome years ago by the gas consumers. At that time the gas companies spent hundreds

of thousands of dollars to prevent the passage of the bill fixing the price of gas. The first year the bill against It. The Board of Trade made an active election, and only thirteen of them were returned to every possible opportunity, and a careful record made of the attitude of each member. At the next election who had opposed the bill in any way, and laid their records before the electors. The result was that men were sent to Albany who werked and voted for the bill, and it was passed. In case of a failure to pass the present bill regulating the rental of telephones, similar tactics will be employed at the polls

phones, similar factics will be employed at the polls next fall.

The association is receiving aid and commendation on all sides, as there is no one besides the people directly interested in the beliphone companies who has any word of excuse or defence for the exorbitant and extortionate rates levied on the long-antiering subscribers. In no other city in the world are the charges one half as high as here, and in few, if any, is the service worse. For obvious reasons the names of the subscribers who are lamided together to secure relief cannot be made public, so a few have taken it upon themselves to conduct the fight in their own names and take what punishment the company chooses to inflet upon them. These men are James Talcott, C. C. Shayne, George L. Pease, of Boorum & Pense; William D. Stewert, of the Stewart Ceramic Company; Shoon Sterne, Shas M. Giddings of Oxley, Giddings & Enos; B. H. B. Rockwar, of the Ashland Home; Paxid Birsch, of the Defance Charfactery, and William Irwin Martin, of Raynor a Martin.

DRESS GOODS. FEBRUARY OPENING.

In order to generally introduce the many peculiar and intricate weaves of our new importations of Dress Goods, we have arranged for a special exhibit to-day.

The largest and most varied

stock of high class woolens we have ever shown. Roubaix Serges, Goffered Crepes, Fluted Crepons. Trans-

parent effects in the new Cords, are among the Novelties. The new shades show a marked difference from those of last season; this change will be observed both in the plain and fancy

We desire every one to see these novel and beautiful goods.
